Leading Technology Solutions delivered with Outstanding Service and Technical Support

InduSoft Web Studio™ is a powerful collection of automation tools that includes all the building blocks needed to develop human machine interfaces (HMIs), supervisory control and data acquisition (SCADA) systems, and embedded instrumentation and control applications.

A Complete Automation Reporting Tool...

Dream Report™ is the first out of the box reporting solution which offers all reporting functions in one standard solution - plant floor connectivity, data and alarms collection and logging, data aggregation from real time and historical databases - to easily create and publish electronic, printed and web enabled reports.

... Graphical Support Tool for Industrial Ethernet Networks

IntraVUE™ gives users the ability to automatically discover and automatically map all IP devices in a network and show their communication status on a single graphical display. Much like Ladder Logic software is used to monitor control systems, **IntraVUE™** is the graphical support tool for monitoring data flow between Industrial Equipment and Operator stations!

Industrial Computing Solutions from ...

Advantech offers the most complete line of Automation Solutions including Industrial PCs, Flat-Panel Displays, Workstations, Embedded PCs, Signal Conditioning, Industrial I/O products and Automation Software. Advantech is also leading the way in providing web-enabled solutions to help customers get connected to their business, utilizing Advantech's *e-Automation Series* of products.

Nematron has been pioneering innovative computer and visualization solutions for the manufacturing and process industries for nearly 25 years. Today, in addition to industrial computers, they offer the PowerView and Optimate line of operator interface products.

Powerware offers a full line of uninterruptible power systems (UPSs), power management software and world class service. Powerware products are used in networking, PC, financial, medical, industrial, voice and data communications, military and aerospace applications - wherever continuous power is essential to daily operations.

... Revolutionizing the Way Work is Done

Motion Computing offers rugged, mobile solutions that keep you connected, whether in Manufacturing, Warehousing, Point of Sale or Healthcare.

... Industrial Device Servers...

For heavy-duty factory applications, Lantronix offers a full complement of industrial-strength external device servers designed for use with manufacturing, assembly and factory automation equipment.

... Industrial Bluetooth

SENA offers an Industrial Bluetooth product line that includes Bluetooth Serial Adapters, Bluetooth Serial Modules and Bluetooth Access Points.

Corporate office:	15B Charron Avenue, Nashua, NH 03063	603-577-8958	603-880-4827 (fax)

Leading Technology Solutions delivered with Outstanding Service and Technical Support

KVM Switches; Remote Access & Control Products...

Recognized as the pioneer of KVM switch technology, Rose Electronics offers the industry's most comprehensive range of local and remote server management products such as Digital KVM IP, KVM switches, KVM extenders, KVM Rack Drawers and Video Splitters.

Indoor and Outdoor ALPHA LED Display Signs ...

Adaptive designs and manufactures a complete line of high quality indoor LED electronic message centers. Cost-effective and easy to program, our displays instantly add excitement and high visibility to any kind of communications.

...Industrial Video Surveillance

Volpe Industries provides the Eagle Eye line of IP-based industrial video surveillance equipment. Whether used for facility security or production monitoring, indoors or outdoors, Volpe Industries has a leading-edge solution. Even existing analog CCTV systems can be incorporated into an Eagle Eye Ethernet network. The entire network can be tightly integrated into an existing SCADA software system for monitoring and alarming. Finally, using Eagle Eye's Secure Authentication tools, authorized users can view & control cameras remotely.

Industrial Ethernet Switches & Hubs...

GarrettCom, Inc is an industry leader in providing feature-rich, high-availability Ethernet networking products for specialty and stressed applications. GarrettCom's Magnum products are built for high & low temperature applications and offer mixed media designs, a variety of power inputs and din-rail mounts.

...Specialty Mounting Arms for Flat Panel Displays

Since 1980, Ergotron has designed and engineered products specifically for improving the human interface with computers, with products designed for manufacturing, finance, healthcare, and more.

Industrial Keyboards & Pointing Devices...

iKey provides users with rugged and innovative keyboards and pointing devices, such as the HulaPoint industrial pointing device. iKey's complete line includes NEMA 4/12 plastic enclosures, NEMA 4X stainless-steel enclosures, intrinsically safe designs and custom keyboards.

PC-based data acquisition, control, and GPIB hardware and software ...

Any Cable, Any Connector, Any Combination!

Grace manufactures the GracePort – bringing all your necessary PLC & computer bulkhead connections through the panel to a NEMA 1/4X housing.
